Grand Canyon Gas Logs

Established in 2011 Grand Canyon Gas Logs was designed to bring quality, realism and American manufacturing back to the hearth industries gas log market. Scouring the South West for the perfect logs, each log is individually cast and hand painted to perfection. Grand Canyon Gas Logs is a combination of the industry’s most authentic looking ceramic refractory logs and the highest quality manufactured array of burners. Designed, engineered and manufactured in the United States, Grand Canyon Gas Logs craftsmanship prove American pride into each log and burner they build. Manufactured in the heartland of America, our burners are made of 30 gauge 304 thickness stainless steel and feature a fully welded frame for superior quality that is unmatched in the gas log market. All products manufactured by Grand Canyon Gas Logs carry a lifetime warranty when installed inside your fireplace. Take a look at our full line of indoor and outdoor products to truly understand the Grand Canyon Gas Log difference.

Who Is Kyle?

Kyle is a real breasted man scouring the Arizona country side in search of the finest logs. This is not a mythical creature that we have created but a real person that would love to shake your hand. Kyle’s jolly spirit is infectious and his tenacity and work ethic is unmatched by any log hunter of his kind. The spirit of Kyle is the foundation of Grand Canyon Gas Logs striking to bring reality to an old industry. Grand Canyon Gas Logs, “Real Logs For Real People”.

GRAND CANYON GAS LOGS

REAL LOGS... FROM REAL PEOPLE
ARIZONA WEATHERED OAK

These logs were found in the mountains of the Northern Arizona forest. In fact, all of the logs that make up this collection were gathered from one tree that was hit by lightning more than 40 years ago. The effects of the lightning strike created bulges, twisting and cracking in the wood which are unique to our Arizona Weathered Oak Collection.

Available in regular sizes 18” - 60” Front View & See Through

Now available in extra large widths of 48” and 60”

JUMBO SERIES & JUMBO SLIMLINE SERIES

Our Jumbo Series matches our massive Jumbo burners with our hefty Arizona Weathered Oak Logs. The 1” limes on the burner are a perfect complement to the 12” diameter of the Jumbo Arizona Weathered Oak front log. Big limes and big logs are not all this collection has to offer as massive flames are the final part of this 3 headed beast. Available in sizes 24” – 120” front view and see through. Jumbo burners have a depth of 2.2” and the Jumbo Slimline burners are 1.5” deep.

NEW
ARIZONA JUNIPER

Found in the washes and valleys of the Northern Arizona terrain, much of the character of the natural wood comes from the arroyo springs and hot summers causing exotic cracking and wild twisting in the wood. Our log hunters hiked the washes hand-picking each of the logs that make up the Arizona Juniper set. Take notice of the detail in each one of the logs that feature deep cracking, pitting and natural wood decor only perfected by Mother Nature.

Available sizes 18”–47” Front View & See Through
WESTERN DRIFTWOOD

Agily named, this beautiful set of timber was conceived with one of the world's 7 natural wonders in mind - The Grand Canyon. This most recent addition to the company's line of hand-crafted gas logs resembles the natural terrain of the Grand Canyon along the sun baked banks of the Colorado River. Scorching summers and cool wet winters served as inspiration behind such detail. It features a washed-out, sun-bleached exterior against rich gray tones and bright white elements creating the look for deep, cracking, splitting-in-the-woods bark. We recommend the Western Driftwood log set as the perfect option for any transitional design.

Available in sizes 18” – 42” Front/View & See-Through.
BLUE PINE SPLIT

These logs were found in the bark beetle savaged forest of Northern Arizona. The infestation of beetles left behind acres upon acres of downed trees, however it created unbelievable wood character only captured in the Blue Pine Split log collection. The deep grain patterns and gray highlights make this look like the wood was split right in half in your fireplace. Don’t like the split side, reverse the log to showcase the fantastic Alligator bark. Available in sizes 18”, 24”, & 30” in Front View Only.

Logs shown on this page have the Alligator bark facing out.

BLUE PINE SPLIT
ARIZONA WEATHERED OAK CHARRED

This collection combines the detail and beauty from our native series and adds the extra dimension of an authentic charred look. Our log hunters hand-picked each of the logs, and then burned the front logs right in half. Once burnt the logs are milled to capture the most realistic looking charred set on the market.

Available sizes 18”-42”
QUAKING ASPEN

Here is Grand Canyon Gas Logs signature Birch set. This traditional Birch log set balances the cream whites with the scored black bark from the winter snows. Available sizes 18", 24", 30" & 36".
